After School Coding Club

What is this?   This is a free opportunity for your child to explore writing computer code.

Anyone can learn the basics of coding! Students will learn to code by solving challenges with Angry Birds, Star Wars Characters, Minecraft, Disney Characters, Flappy Bird, the Foos, and other fun characters. We will be using Code.org to allow your child to learn to code in a fun, game like environment. Your child will start by learning how to program simple video games and stories that they can share with you. They will even have a chance to program some robots!

When is this?   After school on Thursdays from 2:30 to 3:30

                        January 12, 19, 26, February 2, 9, 16, 23, March 2, 9, 16, 23, April 6

Where is this?   Computer Labs at Fort Lewis Elementary

What is the cost? FREE

Transportation?   Parent or a caregiver must pick students up at 3:30.

Who can come?   Students in grades 2, 3, 4, 5 -   We have a limited number of spots and they will be filled on a first-come first-serve basis.

Coding Instructors: Mrs. Meredith, Mrs. Peters, Ms. Coffey, Mrs. Klimaitis

If you are interested, please sign the permission slip below and return to Mrs. K.
